Ok, Thanks for the update and holding some open time for us.

TMDL was in the 11 principles memo. Under the control sources early discussion.

Did you cross check what the lower 8.3 mile Admin Record and ROD said? I believe they had some language in there somewhere.

Jen hope all is well. By way of update.

Keegan and I...well mostly Keegan, went through 11 principles document on the heavy side of yesterday. There are a few responses we're still waiting on this morning. We should be able to send what we have over to you a little later this morning and we are holding time open today (12:00-3:00) to go through the document with you as needed.

For the TMDL question, Right now I can't remember if that was a question in the supplemental memo or 11 principles memo. A TMDL for phosphorous was adopted for the nontidal portion of the Passaic River in April 2008. This was the only TMDL I could confirm.

Oh – and Kern too!

Let me know if you want to chat this morning.

Thanks Scott.

For the CSTAG meeting, I will be looking for Keegan and Ed to give some of the presentations as well.

Diane,

It = presentation Sorry kind of rushed the questions out.

We initially thought we would follow the supplemental memo as an outline for the presentation but as we started going through it and seeing how it has progressed into one continuous presentation. We are thinking the layout of the 11 principles might be the better format to follow. In the end it will most likely be a combination of the 2.

Thanks

**Scott F. Kirchner**

Here is the draft agenda and I will answer as best as I know.

1. Yes both Jen and Michael will be presenting.
2. Not sure what you mean by "it". TMDL?
3. It looks like if all goes well there will be about 3.5 hours for the entire presentation.

**Subject:** CSTAG Presentation

For the presentation we have a couple of questions:

1. Will you and Michael (EPA) be presenting?
2. Should we provide it as a summary/following the 11 Principles with information from supplemental memo as needed (i.e. subsurface data)?
3. What is the time allotment for the presentation, all-inclusive CSM, HH/Eco Risk and 11 principles (Old agenda had 1 hour)?
